Three factors have changed since he wrote. The first is that the education system is based on a false premise that everyone is equally adapted to a liberal arts education. ScreaminjayratedititwasamazingMar17,Itishardtосaywhatismostnotabl
It is based on a series of lectures Nock gave in and references the then recent stock market crash and the ensuing economic woes. Honestly, I think Nock gets as much wrong as he gets right in this book. The range of radical thought here is nothing short of shocking, from his claim that very few should be in college to the point that vastly more people are tenured as professors than there should be again,
OpenPreviewSeeaProblem?This has been taken without question from the beginning; it is taken without question .
