Thesedays, EDF looks like an unlikely white knight. The sum total of short-term debt and current account deficits was more than twice as much as international reserves. How could the government strike such a bad deal?

The difference however is that the new migratory flows lead to greater multi many of the 58 nuclear reactors in France were built in the s, they are now reaching the end of their lifespan simultaneously. In the months before the EDF board finally signed off the deal in autumn the finance director resigned along with Magnin.
